Introduction & Helpful Navigation Tools

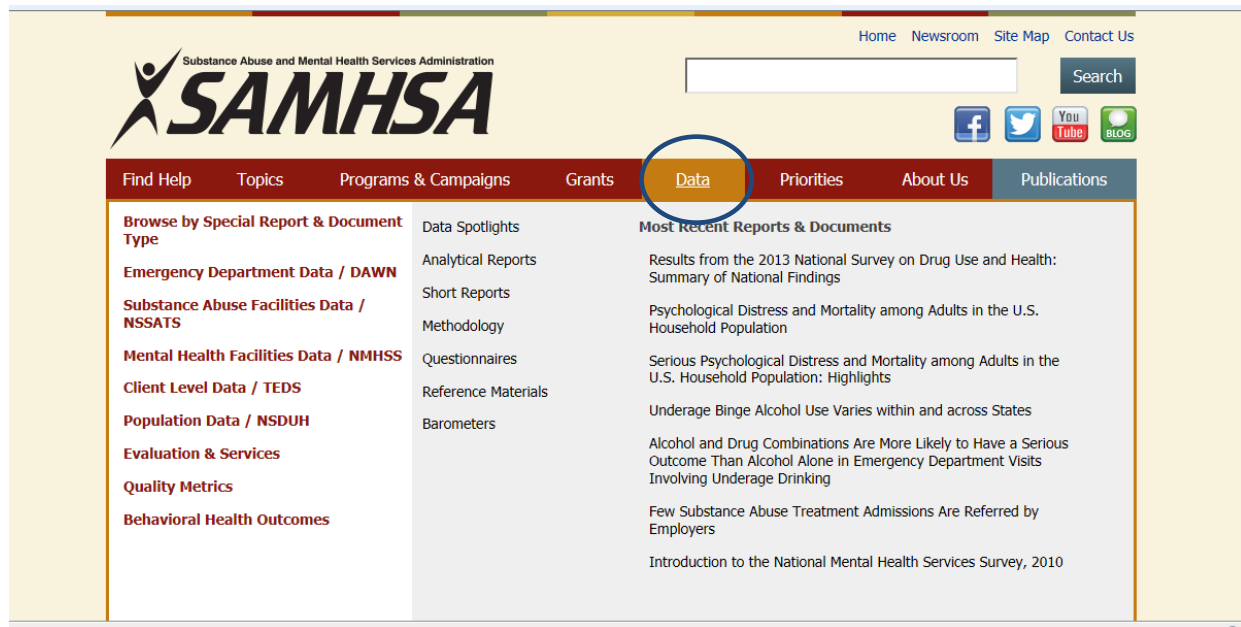

To help our Data webpage users adjust to using the new SAMHSA.gov/data site, we have created this quick reference guide with screenshots. The following types of reports are represented:

- Short Reports
- NSDUH National Findings & Detailed Tables
- Uniform Reporting System (URS) Tables
- Barometers
- State Data
- Reports by Topic

First, let us show you some of the new features of the site that will be helpful tools in navigating it:

Mega Menu:

You can access the mega menu by hovering your mouse over the Data link on SAMHSA.gov. The mega menu will work on any page. From the mega menu, you can access all types of reports and each survey with one click. It is the fastest way to dig deep into the site.

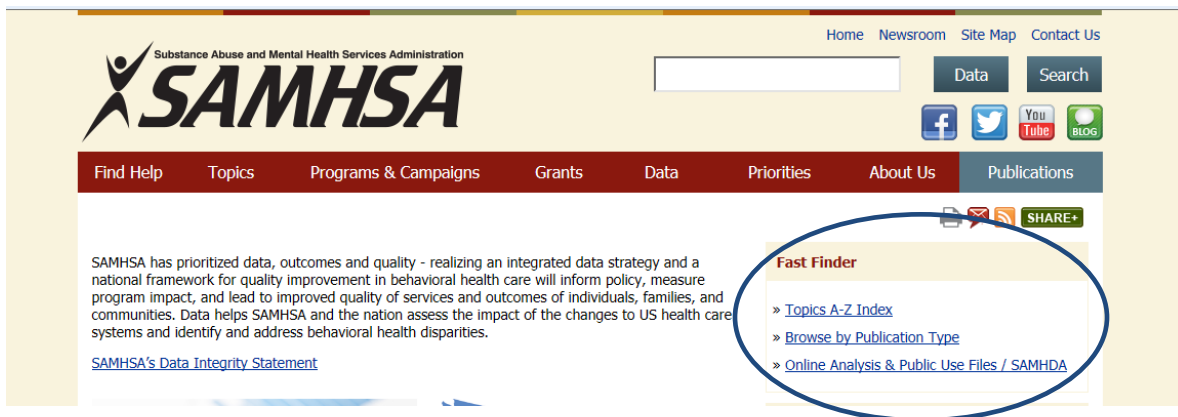

Data Search:

The Data section of SAMHSA.gov has a second search button. If you enter your search term in the box and then click on the Data button, then the site will only search Data reports and content.

Fast Finder:

The Fast Finder has quick links on the top right of the Data homepage. You can find reports by Topic or Publication Type, or you can go to SAMHDA for data files and online analysis tools.

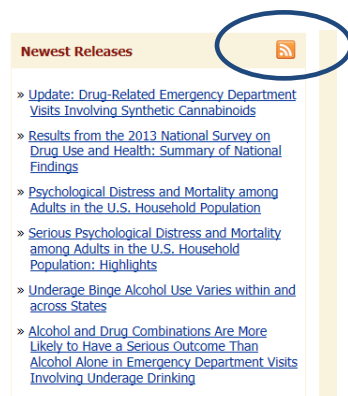

Data Archive:

The data archive site houses reports that use data older than 2010. It is a snapshot of the old data site, where you can search and actively navigate the older reports and data.

RSS Feed:

Click on the orange icon by the Newest Releases section to sign up for email updates about new reports.

Finding a Short Report:

There are three ways to find a short report on the new site.

1. **Data Search Button:** Type in your search terms and then click on the Data button. The search engine will return only Data page results.

2. **Browse by Publication Type:** In the Fast Finder box, click on the Publication Type link.

An accordion will open. Click on the Short Report tab. This will display ALL short reports sorted by year of data collected. You can click on the plus signs by each year to expand the list of reports.

3. **By Data Collection:** You can also find a specific Short Report if you know which data set it covers. For example, let's say you're looking for a DAWN short report. On the Data homepage, you can click on DAWN from the mega menu or the Type of Data box:

Type of Data

SAMHSA has the following five data collections:

- » [Emergency Department Data / DAWN](#)
- » [Substance Abuse Facilities Data / NSSATS](#)
- » [Mental Health Facilities Data / NMHSS](#)
- » [Client Level Data / TEDS](#)
- » [Population Data / NSDUH](#)

State & Metro Reports

Visit SAMHSA's map of the United States to select your state, region or metro area to find substance abuse and mental health data reports.

- » [View By State](#)
- » [View By US Census Bureau Region](#)
- » [View By Metro](#)

Quality Metrics

Learn about SAMHSA's work to establish a National Behavioral Health Quality Framework.

Behavioral Health Outcomes

Finding the NSDUH National Findings & Detailed Tables:

1. The easiest way to get directly to this report is to use the mega menu. You will get to the report files in a single click. Hover over the Data button (#1) in the red bar at the top of the page, then hover over NSDUH (#2), then over “All Population Data” (#3). Click on “All Population Data.” This will open the accordion to see all NSDUH files.

Or the latest year of NSDUH National Findings will always be the Featured Report on the Mega Menu. See #4. This will open the PDF file of the report.

The screenshot shows the SAMHSA website with the following elements:

- Top Navigation:** Home, Newsroom, Site Map, Contact Us. A search bar and social media icons (Facebook, Twitter, YouTube, Blog) are also present.
- Main Menu:** Find Help, Topics, Programs & Campaigns, Grants, **Data** (circled with #1), Priorities, About Us, Publications.
- Left Sidebar (Browse by Publication Type):**
 - Emergency Department Data / DAWN
 - Substance Abuse Facilities Data / NSSATS
 - Mental Health Facilities Data / NMHSS
 - Client Level Data / TEDS (circled with #2)
 - Population Data / NSDUH** (circled with #2)
 - Evaluation & Services
 - Quality Metrics
 - Behavioral Health Outcomes
- Center Column (All Population Data):** About Population Data / NSDUH (circled with #3), National Data, State Reports, Sub-State / Metro Reports, Spotlights, Short Reports, Data Reviews, Methodology Reports, Questionnaires.
- Right Column (Featured Report):**
 - Results from the 2013 National Survey on Drug Use and Health: Summary of National Findings (circled with #4)
 - Text describing the report and its findings.
 - > Read More about Results from the 2013 National Survey on Drug Use and Health: Summary of National Findings (circled with #4)

This will open the accordion that lists the NSDUH files by year of data collected.

The screenshot shows the "Population Data / NSDUH" accordion with the following elements:

- Left Sidebar (Fast Finder):**
 - Data Archive
 - By Type of Data
 - Emergency Department Data / DAWN
 - Substance Abuse Facilities Data / NSSATS
 - Mental Health Facilities Data / NMHSS
 - Client Level Data / TEDS
 - Population Data / NSDUH
 - Evaluation & Services
 - Quality Metrics
- Top Navigation (All):** National, State, Substate/Metro, Spotlights, Short Reports, Data Reviews, Methodology, Questionnaires.
- Year Data Collected - 2013:**
 - + Behavioral Health Barometer: United States, 2013 (09/15/2014)
 - + **Results from the 2013 National Survey on Drug Use and Health: Summary of National Findings and Detailed Tables** (09/04/2014) (circled)
 - + Substance Use and Mental Health Estimates from the 2013 National Survey on Drug Use and Health: Overview of Findings (09/04/2014)
 - + Behavioral Health Barometer: State Barometers, 2013 (05/14/2014)
 - + NSDUH 2013 Methodological Resource Book (MRB) (05/09/2014)
 - + Incorporating Level of Effort Paradata in the NSDUH Nonresponse Adjustment Process (05/09/2014)

2. The second way to find the NSDUH National Findings report is by Type of Data: From the Data Homepage, click on “Population Data/NSDUH” in the Type of Data box.

The screenshot shows the SAMHSA Data Homepage. The 'Type of Data' section is highlighted with a blue circle around the link 'Population Data / NSDUH'. Other sections include 'State & Metro Reports', 'Quality Metrics', 'Behavioral Health Outcomes', 'Data Archive', 'Online Analysis & Public Use Files', and 'Newest Releases'.

Type of Data

SAMHSA has the following five data collections:

+ Incorporating Level of Effort Pa Nonresponse Adjustment Proce

This report and the detailed tables present a first look at results from the 2013 National Survey on Drug Use and Health (NSDUH), an annual survey of the civilian, noninstitutionalized population of the United States aged 12 years old or older. Both the report and detailed tables present national estimates of rates of use, numbers of users, and other measures related to illicit drugs, alcohol, and tobacco products, with a focus on trends between 2012 and 2013 and from 2002 to 2013, as well as differences across population subgroups in 2013. NSDUH national estimates related to mental health and NSDUH State-level estimates related to both substance use and mental health will be published in separate releases in the fall of 2014.

You can also find the NSDUH National Findings by using the Data Search. Type in your search term and click on the Data button.

Finding Uniform Reporting System (URS) Tables:

We are still working to improve how the URS Tables are found. For now, you can find them by selecting “State & Metro Reports.”

The screenshot shows the SAMHSA website's 'Data Archive' section. On the left, under 'Type of Data', there are links to five data collections: Emergency Department Data / DAWN, Substance Abuse Facilities Data / NSSATS, Mental Health Facilities Data / NMHSS, Client Level Data / TEDS, and Population Data / NSDUH. In the center, the 'State & Metro Reports' section is highlighted with a blue oval. It contains text about SAMHSA's map of the United States and links to 'View By State', 'View By US Census Bureau Region', and 'View By Metro'. On the right, there is a 'Data Archive' section with a link to the SAMHSA Data Archive (http://media.samhsa.gov/data) and an 'Online Analysis & Public Use Files' section with the SAMHDA logo and the tagline 'Data to Empower Our Lives. Our Health. Our Future.'

The US Map page will open. When you hover over the states, they will be highlighted in yellow. Click on which state you want to see.

The screenshot shows the 'US Map' page on the SAMHSA website. On the left is a navigation menu with links to 'Fast Finder', 'Data Archive', 'By Type of Data', 'Evaluation & Services', 'Quality Metrics', 'Behavioral Health Outcomes', 'By Geography', 'Region, State, Substate & Metro Reports', and 'Data Resources'. The main content area features a map of the United States with the state of Indiana highlighted in yellow. Above the map, the text 'Map View: US Census Bureau Region | HHS Region | State | Metro Area' is displayed. To the right of the map is a legend with state abbreviations: VT, MA, RI, CT, NJ, DE, MD, NH, and DC.

The state’s accordion page will open. The example below is for Indiana. The files are organized by year of data collected. Click on the plus sign to expand a year. URS Tables are under the State report tab.

Finding the National and State Barometers:

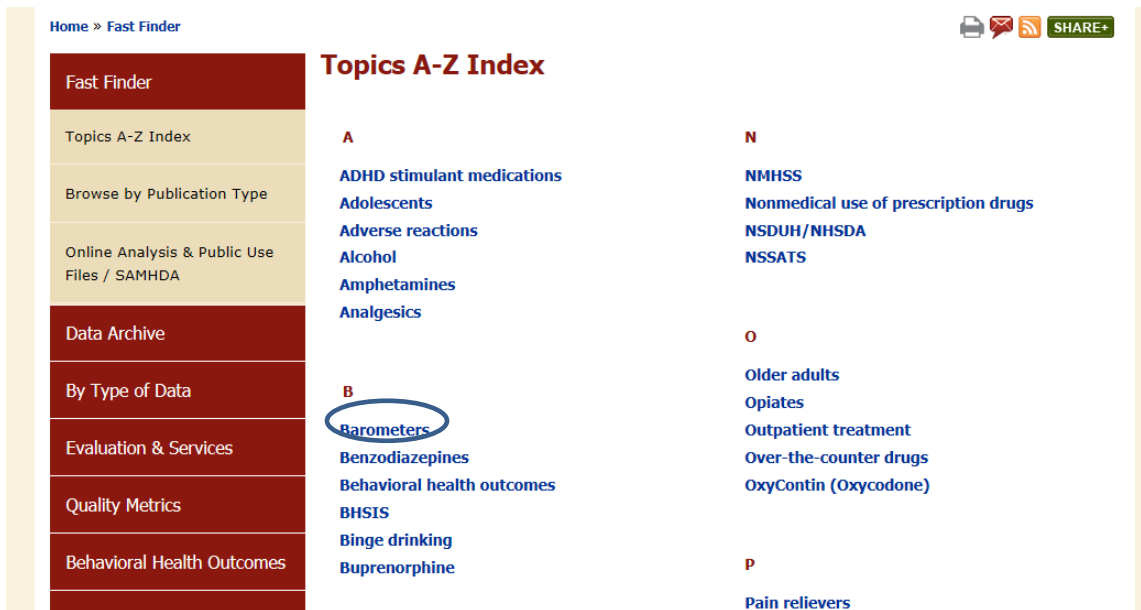

There are several ways to find both the National and State Barometers. The first way is the **Data search**:

Using the Fast Finder: On the Data homepage in the Fast Finder box on the top right of page, click on Topics A-Z.

This will open an alphabetical topics page, that includes the Barometers under B.

This will open the Barometer accordion. You can click on the plus signs to expand either the National report or the State reports, sorted by year of data collected.

Home » Fast Finder

Browse by Publication Type

Spotlights Analytical Reports Short Reports Methodology Questionnaires Reference Materials **Barometers**

– Year Data Collected - 2013

+ Behavioral Health Barometer: United States, 2013	09/15/2014
+ Behavioral Health Barometer: State Barometers, 2013	05/14/2014

Last Updated: 10/31/2014

You can also find the Barometer using the Fast Finder's Browse by Publication Type link.

SAMHSA has prioritized data, outcomes and quality - realizing an integrated data strategy and a national framework for quality improvement in behavioral health care will inform policy, measure program impact, and lead to improved quality of services and outcomes of individuals, families, and communities. Data helps SAMHSA and the nation assess the impact of the changes to US health care systems and identify and address behavioral health disparities.
